- A Lock-Down protocol is initiated when there is an immediate **THREAT of VIOLENCE** to students and staff **INSIDE** the building.
- The main objective of a Lock-Down is to protect the maximum number of people by getting behind **LOCKED DOORS**.
- In a Lock-Down situation, students and staff will be locked in secure areas and the school will **NOT** operate as normal. **No one will be allowed in or out of the school.**
- The Lock-Down will not end until the Incident Commander on-site issues the **ALL CLEAR** and doors are unlocked by the Incident Commander or police.

- There is an emergency situation in close proximity to the school, **OUTSIDE** the school on school grounds and/or unrelated to the school.
- All exterior doors to the school are locked.
- The school operates as normal, inside the school walls. Any outdoor activities, field trips, etc. are cancelled.
- As the incident is occurring outside, access to and from the school is restricted and carefully monitored.

- There is an **ENVIRONMENTAL** emergency in close proximity to the school, outside the school on school grounds and/or unrelated to the school. Examples can include; dangerous goods spill, wildlife on the playground, tornado, etc.
- If the threat is immediate, students and staff will be gathered into safer spaces, such as away from outside walls and large vented areas.
- Access to and from the school will depend on the **ENVIRONMENTAL** emergency.
- The protocol will continue until the Incident Commander issues the **ALL CLEAR**.

- There is possible danger **INSIDE** the school. Examples can include; fire, chemical spill, gas leak, etc.
- Students will be escorted by staff to a safe location away from the school.
- If required, students will be transported to predetermined evacuation centres. Students will be released using the division's Student Release procedures.
- No one will re-enter the school until the Incident Commander issues the **ALL CLEAR**.
